Graduation Requirements Summary

Minimum Total Hours	Major Requirements Hours	College & Program Requirements Hours	Minimum Carolina Core Hours	Minimum Overall GPA
121	27	60	34	2.00

- Regardless of individual course grades, students must maintain a minimum 2.00 cumulative GPA.
- Some colleges require a minimum GPA for major courses. Courses indicated in this column are included in the major GPA of 2.00 for this program.
- Students who place into MATH 111 or 115 will be required to successfully complete it before taking MATH 122 or 141.
- The [Carolina Core](#) provides the common core of knowledge, skill and academic experience for all Carolina undergraduate students. Students in the College of Engineering and Computing are required to demonstrate proficiency in one foreign language equivalent to the 121 course by 1) a score of two or better on the foreign language placement test; or 2) completion of the 109 and 110 courses in FREN, GERM, LATN, or SPAN or completion of the 121 course in another foreign language. Students who do not place out of the GFL requirement may need to take additional hours to meet this requirement.
- Students in the Computer Information Systems program are required to complete a minor in Business Information Management (24 hours), including any two of the following electives (6 hours): ACCT 324 – Survey of Commercial Law; ECON 311 – Issues in Economics; ECON 379 – Government Policy Toward Business; FINA 333 – Finance and Markets; IBUS 301 – Introduction to International Business; MGMT 472 – Entrepreneurship and Small Business; MKTG 350 – Principles of Marketing; MKTG 351 – Consumer Behavior; MGSC 392 – Quantitative Analysis for Business Decision Making; MGSC 395 – Operations Management; MGSC 594 – Strategic Management of Information Systems.
- A list of acceptable **Liberal Arts Elective** courses is maintained in the department office and on its [website](#).
- Computer Information Systems Major Elective** (3 hours): CSCE 317 or other approved CSCE courses numbered 500 and higher.

Program Notes:

- Courses identified as “critical” may affect time to graduation due to prerequisite requirements for subsequent required courses.
- No Carolina Core, Lower Division Computing, Computer Science Major, or Computer Science Elective course may be counted toward a minor or application area. All other degree-required courses and electives may be used for a minor as appropriate.
- A student cannot repeat courses from the College of Engineering and Computing in which they earned a grade of C or better. In addition, a student cannot repeat any course from the College a second time. No more than four courses from the College of Engineering and Computing may be repeated in order to satisfy the requirements for any degree from the College, regardless of satisfactory work. For this purpose, withdrawal from a course with a grade of **W** is not regarded as enrollment in that course. A student that does not satisfactorily complete a degree-required College course within two attempts must change major or transfer out of the College of Engineering and Computing.
- The last 30 credit hours toward your degree and at least half of the major must be earned in residence at the University of South Carolina-Columbia.
- Disclaimer: Prerequisites on courses are subject to change. Please refer to [Bulletin](#).

University Requirements: Bachelor’s degree-seeking students must meet Carolina Core (general education) requirements. For more information regarding these requirements, please visit the [Carolina Core](#) page on the University website.
