Office of Institutional Research and Assessment

Dr. Belle S. Wheelan, President
Commission on Colleges
Southern Association of Colleges and Schools
1866 Southern Lane
Decatur, GA 30033-4097

Dear Dr. Wheelan:

I am writing to notify the Commission on Colleges that the University of South Carolina Columbia is approaching the threshold of offering 50% of the Professional Master of Business Administration (PMBA) degree at three remote viewing sites identified in this letter. The Darla Moore School of Business delivers its existing distance education Professional Master of Business Administration (PMBA) degree program to the following three locations that are approaching the 50% threshold:

Site 1: Moore School of Business Greenville Classroom
201 Riverplace Suite 300
Greenville, SC 29601

Site 2: Moore School of Business Charleston Classroom
151 Market Street
Charleston, SC 29401

Site 3: BB&T Center
200 S. College Street, Suite 110
Charlotte, NC 28202

The University of South Carolina Columbia has prepared a prospectus to request approval to offer 50% or more of the PMBA degree at each of the locations listed above. Should you have questions or require further information, please do not hesitate to contact me.

Sincerely,

Donald Miles, Director of Institutional Effectiveness and Accreditation and SACSCOC Accreditation Liaison

Degree program related to proposed program: Professional Master of Business Administration (PMBA)
Program

Institutional Strengths: Committed faculty, experience with off-campus sites offering 25%-49% of PMBA program, and fulfills the mission of the institution

1. ABSTRACT

The purpose of this prospectus is to acquire approval for three instructional sites for the Professional Master of Business Administration (PMBA) Program within the Darla Moore School of Business (DMSB) at the University of South Carolina Columbia. The PMBA offers a part-time MBA Program to working professionals. Courses are offered in blended learning formats: regional classrooms, on-demand course capture in real time and delay, and daylong immersions on the Columbia campus. The proposed change will support our provision of 50% or more of the curriculum for this program at our 1) Greenville site, located at 201 Riverplace, Suite 300, Greenville, SC 29601; 2) Charleston site, located at 151 Market Street, Charleston, SC 29401; and 3) Charlotte, North Carolina site, located at BB&T Center, 200 S. College Street, Suite 110, Charlotte, NC 28202. The proposed date of implementation of these three locations as approved instructional sites is July 1, 2018. Our projected number of students enrolling per year is: in Greenville, 25 (estimated time remaining in the program is 28 months; estimated number of students at one point in time is approximately 55); in Charleston, 25 (estimated number of students at one point in time is approximately 55); and in Charlotte, 55 (estimated number of students at one point in time is approximately 125). The expectation is that these sites will be on-going. The target audience is working professionals with an average of 7 years of professional experience. Video conferencing equipment is available in each of two classrooms at each of the three sites and provides real time communication with the professors in the Moore School classrooms during class time as well as between PMBA sites. Classrooms contains a Polycom video conference codec, Crestron processor, an Eagle Eye camera, ceiling microphones and two large monitors: one to view people and one for content. Because the PMBA Program has successfully been delivering blended Master's level education since the 1970s, and the technology is already in place, we are well-positioned to implement Greenville, Charleston, and Charlotte, NC as approved instructional sites.

2. DETERMINATION OF NEED FOR THE CHANGE/RELATIONSHIP TO MISSION/PLANNING AND APPROVALS FOR THE CHANGE

The primary mission of the University of South Carolina Columbia is the education of the state's citizens through teaching, research, creative activity, and community engagement. The mission statement also mentions that the University has a responsibility to students with diverse backgrounds, goals, and aspirations, to foster career development and quality of life. The ability of the PMBA to help more mature professionals in South Carolina and nearby areas, as opposed to more traditional populations, is enhanced by the existence of instructional locations in several areas of the state and in Charlotte, NC. The Program utilizes almost all of the instructional media noted in the University mission statement to extend its reach: distance learning via the internet, teleconference, and other digital communication media, complemented by classroom teaching in Columbia. The approval of these instructional sites facilitates the University's *relevance, reach, and impact on the people of the state* by enabling employed professions who don't live or work near Columbia to engage in high-quality, flexible education in furthering their careers and personal development. In turn, these professionals continue to enhance the social and economic environment in our state and region.

The mission of the DMSB is as follows: *to foster a dynamic and collegial environment that serves our two most important goals: the creation of knowledge and the education of future business leaders. We produce rigorous and relevant research that enriches the understanding and practice of business. We develop graduates whose professional expertise, skills, and leadership are enhanced by a unique understanding of the global marketplace. Through our service and our achievements in research and education, we contribute to the welfare of our main constituents: our students, alumni, University, state and business partners.*

Further, goals that continue to be a part of the DMSB's planning include improving the quality of asynchronous PMBA program delivery, and standardizing the quality of our synchronous delivery of PMBA programming. Instructional grants have been awarded to select PMBA faculty for a 3-year period to promote innovation in the use of blended learning models, with attention to effective use of asynchronous as well as video conferencing delivery modes. Support for these initiatives is also provided through funding an instructional design professional focused on facilitating innovation in instruction. The DMSB is also committed to improving access to our programs, including PMBA. The initiative to gain instructional site approval for Greenville, Charleston, and Charlotte is consistent with a number of elements of this mission and the goals noted here. The ability to deliver more content to these sites allows us to do the following: reach more future business leaders, contribute to our student, alumni, University, state, and business constituents in this area of our state, utilize innovative technology-based teaching on a broader scale, and assist more working professionals in these areas to engage with the PMBA Program.

As the Program moves to increase the extent to which content can be delivered through a high-quality process to distance locations, the need to acquire "approved instructional site" status for Greenville, Charleston, and Charlotte becomes evident. The PMBA Program is committed to quality instruction; as the DMSB has gained the technology to enable such delivery at distance sites, a greater proportion of the Program can be delivered directly to such sites. We anticipate the availability of more than 50% of our program offerings at these locations, and therefore see a need to change the status of the site. As the PMBA Program has been offering content in these locations, we don't believe there are other legal issues associated with this change. [Appendix 1](#) provides a copy of our agreement to maintain a location in Charlotte, NC.

The initiative to obtain instructional site status for these locations was unanimously approved by the Faculty Director of the Program, Dr. Elizabeth Ravlin, the Graduate Programs Committee for PMBA (Dr. Chuck Kwok, Dr. Joel Wooten, Dr. D.H. Zhang, and Professor Mark Newsome), and the DMSB Senior Associate Dean of Academic Affairs, Dr. John McDermott.

3. REQUIRED INFORMATION FOR THE SPECIFIC SUBSTANTIVE CHANGE: A NEW OFF-CAMPUS SITE OR BRANCH CAMPUS

The University of South Carolina Columbia seeks approval for instructional sites in Greenville, Charleston, and Charlotte, NC locations. The PMBA offers a part-time MBA Program to working professionals. Courses are offered in blended learning formats: regional classrooms, on-demand course capture in real time and delay, and daylong immersions on the Columbia campus. During the week, courses are offered via distance technology; on selected Saturdays, students

come to Columbia for in-person learning experiences. In addition to Columbia, the program has 3 major sites and 3 minor locations. The target audience for the Program is working adults with an average of 7 years of professional experience. Students in the Program work for a variety of employers, primarily in South Carolina, North Carolina, and Georgia, and represent the largest companies in the area. Video conferencing equipment is available in all locations to provide real time communication with the professors in the Moore School classrooms during class time as well as to the other PMBA sites.

The PMBA Program has been in existence for more than 40 years. It is a 48-credit hour program with 9 core courses in Financial and Managerial Accounting, Financial Policies, Marketing, Economics, Operations Management, Leadership and Organizational Behavior, Quantitative Methods, and Strategic Management. In selecting their 7 electives, students may choose to specialize in international business, finance, marketing, or innovation/entrepreneurship, or they can earn a Certificate in Business Analytics. The curriculum provides options to take study-abroad, experiential or project-based learning, or immersive courses on weekends in Columbia in addition to the most typical format of weeknight interactive distance learning coupled with Saturday sessions.

The Program does not incorporate any differences between locations in admission, curriculum, or graduation requirements. There are no special arrangements regarding grading, transcripts, or transfer policies for any location. All University of South Carolina Columbia procedures are in effect for all students. As noted in Section 9, the Program is subject to the same monitoring and evaluation processes as the Columbia location, regardless of where it is delivered. Course evaluations for all locations are carried out using Class Climate, the online course evaluation system maintained by the University's University Technology Services. Students receive evaluation invitations and reminders via email. Links contained in these emails and within the students' Blackboard accounts provide access to the online evaluation system. As regards assessment, the DMSB has an established assessment process, in which the Assessment Director coordinates directly with program administration and course instructors to identify assessment measures and collect student outputs. Because the instructors for courses at this site are located at the Columbia campus, communication between the instructors and Assessment Director and the collection of student work are the same as for all other programs and courses offered by the Moore School.

The administrative structure for overseeing activities at the Greenville, Charleston, and Charlotte, NC locations are as follows: The Faculty Director of the PMBA Program supervises the PMBA Managing Director, who holds primary responsibility for the sites' activities. The Managing Director supervises the Site Coordinators, and visits the locations every one to two months. Beyond this structure, the functioning of the technology at the site is overseen by the DMSB Information and Technology Services group, with support from the University Technology Services. Evaluation of site personnel is conducted by the PMBA Managing Director. In addition, the PMBA Program surveys all students at least 3 times during their tenure in the program (once toward the start of their studies, one toward the middle, and one at graduation). These surveys provide the opportunity for students to evaluate the services and operations at their site. Students can also report any problems on an ongoing basis to any of the 5 full-time PMBA staff or the Faculty Director.

Faculty qualifications are described in Section 4 below.

4. FACULTY QUALIFICATIONS

Faculty teaching to the Greenville site are the same faculty who teach in Columbia and to other sites, and most teach in other DMSB programs as well. Faculty are normally engaged to teach in the PMBA Program as part of their assigned course load. Almost all faculty are full-time University of South Carolina employees. Occasionally, additional compensation is offered to instructors to teach an additional course. Practitioners with demonstrated content knowledge and teaching ability are also incorporated into the faculty to provide the perspective of business professionals in certain courses (for example, a small business CEO might teach a course in small business management). Because the change we propose is to facilitate the availability of 50% of the program content at the site, there will be no impact on faculty workload, and the faculty are already in place to teach the courses. Please see [Appendix 2](#) for the Faculty Roster Form providing the Program faculty listing and their qualifications.

5. LIBRARY AND LEARNING RESOURCES

As is typical in the 21st century, most fundamental library resources are available on line through the University of South Carolina library resources. Students go to the university library website at <http://library.sc.edu/p/Libraries>, and log in using their university systems information. Each term, instructors have the opportunity to have a librarian address their classes to provide further information and demonstrations on accessing these resources. The librarian sets up business research guides for different classes, projects, and/or subject areas as needed. In addition, instructions on accessing the library are included on Blackboard class websites (as needed by course). The Library can help instructors serve distance students by putting course readings into Blackboard, and the e-Reserves service can provide links to library databases, including streaming video as well as journal articles. They can also scan articles from the Library's print collection into Blackboard. Further, the Library has a chat function that allows students and instructors to chat with a librarian in real time as needed. Beyond the University of South Carolina Library, the DMSB also has Bloomberg databases accessible from a computer lab in Columbia. All students, regardless of location, travel to Columbia to use these resources as scheduled for a particular course. The list of primary learning resources available to students is provided in [Appendix 3](#).

6. STUDENT SUPPORT SERVICES

All students admitted into the PMBA Program, regardless of location, are provided an array of student services including onboarding, academic advisement and course navigation, a dedicated career coach along with access to the Office of Career Management, and a PMBA hooding ceremony every May and December.

Onboarding services are provided once the student is admitted. Onboarding sessions along with the New Student Checklist are intended to ensure the smooth transition into the PMBA program. Onboarding sessions are virtual webinars offered after the applicant is admitted. The sessions are presented by the Assistant Director of Recruiting and the Charlotte/Upstate Recruiting Manager. The New Student Checklist is a chronological list of the steps along with the contact information for each specific department. It details each requirement for the University of South Carolina Columbia and how to resolve holds that may prevent student from registering. After the student has attended an onboarding session and completed all components of the New Student Checklist the recruiter assists the student with registering for classes.

Each individual site location employs a site coordinator who manages all student concerns that may arise and are also experts in operating the Polycom technology before, during, and after classes are held. At the University of South Carolina Columbia campus, we have 2 Student Service managers who work with the PMBA students at each site location. Each student receives academic advisement as they enter the program; the student may choose to have an advisement session via telephone or in person. The Student Services Manager assists in developing a degree plan, submitting evaluation of transfer credit, and selecting one of the five specializations the PMBA Program offers.

The PMBA Program also employs a Career Coach who is solely dedicated to the PMBA students. The career coach can assist with resume development, interviewing skills, job search planning and research, networking techniques, and lifelong career planning. Additionally, PMBA students have access to the Office of Career Management (OCM) at the DMSB. The OCM assists PMBA students with career change or in finding progressive employment. The OCM prepares students for a relevant, accurate and successful job search, access to web-based career search and strategy tools, resume critique, and professional development seminars and workshops. In addition, the DMSB hosts a biannual Business EXPO where over 130 employers have the opportunity to meet the PMBA students and to source talent.

The DMSB holds a master's hooding ceremony in Columbia to honor graduates of master degree programs. This is an intimate event; it includes graduates from all Moore School graduate programs and is followed by a reception. All graduates are invited to participate in this ceremony, which is held each December and May.

7. PHYSICAL RESOURCES

Physical resources for the three locations are similar, and described in detail below. These resources do not impact the current resources for existing programs. They are intended to extend the reach of the PMBA Program, not to reduce it in Columbia. Further, other programs at the DMSB are not impacted because each program has a separate budget. Please see Section 8 for further information regarding the budgetary model.

Site 1. Greenville: 201 Riverplace is a multi-use building one block from West Main Street in downtown Greenville. The Moore School of Business leases approximately 3,650 square feet on the ground level of the building. The space consists of two classrooms (one with 23 seats and

the other with 28), an office and a small reception area. Video conferencing equipment is available in each of the classrooms and provides real time communication with the professors in the Moore School classrooms during class time as well as to the other PMBA sites. Each classroom contains a Polycom video conference codec, Crestron processor, an Eagle Eye camera, ceiling microphones and two large monitors: one to view people and one for content. The site therefore has the capacity to receive interactive instruction for two classes each evening, M-TH.

Julie Clements, the Greenville PMBA site manager, works Monday through Thursday from 1:00 to 9:00 pm and Friday 9:00 am to 5:00 pm. She is responsible for covering the evening class times as well as facility management services. PMBA students utilize street parking and garage parking available from nearby hotels. No impact on physical facilities or equipment at other sites or in Columbia will be incurred.

Site 2. Charleston: The DMSB leases facilities at 151 Market St. in downtown Charleston to host the PMBA Program's weeknight classes. The site is about 2,000 square feet and consists of two classrooms (one seats 30 and the other 20) with a movable wall, a small office and a reception area. The street-level classrooms have video conferencing equipment installed and offer real time communication between the other PMBA sites as well as the Moore School classrooms where the PMBA professors are teaching. The classroom technology equipment consists of a Polycom video conference codec, Crestron processor, an Eagle Eye camera, ceiling microphones and two large monitors: one to view people and one for content.

The facility is operated weekdays by William Protho, the Charleston site manager. Evening classes are staffed by Robert Taylor, a part-time employee. Charleston PMBA students park in the Majestic Square parking garage behind the classroom building and receive discounted parking rates.

Site 3. Charlotte, NC: The DMSB leases 4,750 square feet on the street level of the BB&T Center, 200 S. College St. in uptown Charlotte. There are three video conferencing classrooms, small kitchen, conference room and office at the site. Each classroom is designed to seat about 34 people and there is an option to combine two classrooms for larger groups. PMBA professors have real time communication with the students attending classes at the site. Charlotte students are also able to communicate with students at the other sites. A typical PMBA enhanced distance classroom contains the following equipment: A Polycom video conference codec, Crestron processor, an Eagle Eye camera, ceiling microphones and two large monitors: one to view people and one for content.

Melissa Nagle, the Charlotte/Upstate PMBA recruiting manager, staffs the facility weekdays while Samen Zahir (part-time employee) is the evening class coordinator Monday through Thursday. Parking is available to PMBA students in the BB&T Center's parking garage at a significantly discounted rate between the hours of 5:00 and 10:00 pm, Monday through Thursday.

8. FINANCIAL SUPPORT

Information regarding financial resources for each site are provided below:

Site 1. Greenville FY 2018-19:

REVENUE	
Tuition Dollars (\$741 per credit hour)	\$523,887
Technology Fee (\$17 per credit hour)	12,019
Matriculation Fee (\$80 per new student)	<u>1,600</u>
Total Income	537,506
EXPENSES	
Payroll	\$43,389
Payroll - Fringe	10,847
Lease Payments/Operating Costs/Usage Fees	42,000
Central USC Technology Expense	12,019
Central USC Admissions Costs	1,600
Central USC Board Mandated Fees	71,878
Telephone	3,440
Advertising	9,600
Utilities (electricity and water)	7,587
Custodial Services	3,900
Insurance	3,000
Parking	500
Misc. Supplies	100
Communications Equipment Lease/Maintenance	<u>7,516</u>
Total Expenses	217,376
NET INCOME	<u><u>\$320,130</u></u>

Financial Resources-Greenville

The financial resources available to support this site include tuition and technology fee (based on a per credit hour basis) for students enrolling at this site and the matriculation fee (a one-time charge in the first semester enrolled) for students at this site. The technology fee is used to support University-wide technology, and the matriculation fee is used to support University-wide admissions.

Operational, Management, and Physical Resources-Greenville

The management of the PMBA program is conducted through the Darla Moore School of Business main campus location in Columbia, South Carolina. The Greenville site operates out of

a leased location in downtown Greenville, supported operationally by one full-time staff member.

Contingency Plan-Greenville

The PMBA program at the DMSB has been a growing program for the past decade, which is a trend that we expect to continue. In the event that the enrollment does not support the location expenses, the lease could be terminated and the students enrolled at this location could enroll at another PMBA site.

Site 2. Charleston FY 2018-19

REVENUE	
Tuition Dollars (\$741 per credit hour)	\$531,297
Technology Fee (\$17 per credit hour)	12,189
Matriculation Fee (\$80 per new student)	<u>2,000</u>
Total Income	545,486
EXPENSES	
Payroll	\$56,164
Payroll - Fringe	14,041
Lease Payments/Operating Costs/Usage Fees	39,172
Central USC Technology Expense	12,189
Central USC Admissions Costs	2,000
Central USC Board Mandated Fees	72,894
Telephone	2,918
Utilities (electricity and water)	1,300
Custodial Services	4,200
Insurance	3,000
Parking	2,000
Supplies	100
Communications Equipment Lease/Maintenance	<u>7,516</u>
Total Expenses	217,494
NET INCOME	<u><u>\$327,992</u></u>

Financial Resources-Charleston

The financial resources available to support this site include tuition and technology fee (based on a per credit hour basis) for students enrolling at this site and the matriculation fee (a one-time charge in the first semester enrolled) for students at this site. The technology fee is used to support University-wide technology, and the matriculation fee is used to support University-wide admissions.

Operational, Management, and Physical Resources-Charleston

The management of the PMBA program is conducted through the DMSB main campus location in Columbia, South Carolina. The Charleston site operates out of a leased location in downtown Charleston, which is supported operationally by one full-time and one part-time staff member.

Contingency Plan-Charleston

The PMBA program at the DMSB has been a growing program for the past decade, which is a trend that we expect to continue. In the event that the enrollment does not support the location expenses, the lease could be terminated and the students enrolled at this location could enroll at another PMBA site.

Site 3. Charlotte, NC FY 2018-19

REVENUE	
Tuition Dollars (\$741 per credit hour)	\$870,675
Technology Fee (\$17 per credit hour)	19,975
Matriculation Fee (\$80 per new student)	2,880
Total Income	893,530
EXPENSES	
Payroll	\$72,986
Payroll - Fringe	18,247
Lease Payments/Operating Costs/Usage Fees	134,584
Central USC Technology Expense	19,975
Central USC Admissions Costs	2,880
Central USC Board Mandated Fees	119,457
PMBA Audit	8,500
NC Licensure	4,000
Tuition Bond	4,500
Advertising/Marketing	22,500
Insurance	3,000
Parking	2,220
Supplies	300
Mileage	500
Communications Equipment Lease/Maintenance	7,516
Total Expenses	421,165
NET INCOME	<u><u>\$472,365</u></u>

Financial Resources-Charlotte, NC

The financial resources available to support this site include tuition and technology fee (based on a per credit hour basis) for students enrolling at this site and the matriculation fee (a one-time charge in the first semester enrolled) for students at this site. The technology fee is used to support University-wide technology, and the matriculation fee is used to support University-wide admissions.

Operational, Management, and Physical Resources-Charlotte, NC

The management of the PMBA program is conducted through the DMSB main campus location in Columbia, South Carolina. The Charlotte site operates out of a leased location in downtown Charlotte, which is supported operationally by one full-time and one part-time staff member.

Contingency Plan-Charlotte, NC

The PMBA program at the DMSB has been a growing program for the past decade, which is a trend that we expect to continue. In the event that the enrollment does not support the location expenses, the lease could be terminated and the students enrolled at this location could enroll at another PMBA site.

9. DESCRIPTION OF INSTITUTIONAL EVALUATION AND ASSESSMENT PROCESSES FOR THE CHANGE

Course evaluations at each of the three sites and the University of South Carolina Columbia location are carried out using Class Climate, the online course evaluation system maintained by the University of South Carolina Columbia's University Technology Services. Students receive evaluation invitations and reminders via email. Links contained in these emails and within the students' Blackboard accounts provide access to the online evaluation system. Additionally, course instructors are able to receive the results for their course evaluations automatically from Class Climate, or by contacting their departments' administrative assistants or the Moore School's Assessment Director. Because the course evaluation process is conducted entirely through email and online, students attending classes at the Greenville, Charleston, and Charlotte, NC sites have the same evaluation experience as all other students at the School and University.

The approval of these locations as instructional sites will have no effect on the School's assessment and assurance of learning activities related to this program. The Moore School has a well-established assessment process, in which the Assessment Director coordinates directly with program administration and course instructors to identify assessment measures and collect student outputs. Because the instructors for courses at this site are located at the Columbia campus, communication between the instructors and Assessment Director and the collection of student work are the same as for all other programs and courses offered by the Moore School. The PMBA Program is assessed on the following Learning Outcomes, regardless of location of the students:

1. PMBA students will be able to engage in effective business communication, with competencies demonstrated for both oral and written communication.

2. PMBA students will acquire in-depth knowledge in the core foundational courses of business to understand the operations of the modern business corporation.
3. PMBA students will examine the role of quantitative data in managerial decision-making. They will understand the importance and roles of different types of data (financial, economic, accounting, etc.) and utilize appropriate format for presentation of data.
4. PMBA students will be able to draw upon their understanding of the international business environment to address complex business or economic questions.

SUBJECT: Licensure of The University of South Carolina to offer a degree program in Charlotte, North Carolina

The Board of Governors of The University of North Carolina is charged under North Carolina General Statute Section 116-15 with responsibility for licensing nonpublic educational institutions to conduct post-secondary degree activity in North Carolina. In November 2004, the Board of Governors approved revisions to the document, *Rules and Standards: Licensing Nonpublic Institutions to Conduct Degree Activity in North Carolina*. This document provides the guidelines for interpreting the standards, and the rules, regulations, and procedures under which the Board issues licenses to institutions to conduct post-secondary degree activity in North Carolina.

The University of South Carolina applied for licensure to establish a viewing and examination site in Charlotte, North Carolina for the Professional Master of Business Administration degree program which will be delivered via satellite television from the main campus of the University.

Dr. Howard-Vital reviewed the application and appointed a team of examiners to determine if the University of South Carolina complied with the licensure standards outlined in *Rules and Standards*. On February 13, 2006, the team of examiners visited Columbia, South Carolina. Following the site visit, the team of examiners issued its report with suggestions and recommendations and a final recommendation to grant licensure to the University of South Carolina subject to compliance with the recommendations outlined in the Summary. Dr. Howard-Vital agrees with the team's review and recommendations. For more details on the recommendations and the responses for the proposed degree program by the University of South Carolina, please review the Summary.

Thus, I recommend to the Committee on Educational Planning, Policies, and Program of the UNC Board of Governors that a regular license be issued to the University of South Carolina to conduct the proposed degree program in Charlotte, North Carolina, subject to annual reports and review at any time. After one year has elapsed following licensure, the University of South Carolina will be reviewed, again, to judge whether the institution continues to maintain standards for licensure.

Summary of Visit of Team of Examiners for University of South Carolina

Background Information

The University of South Carolina in Columbia (USC), South Carolina is over 200 years old. The Columbia campus, its flagship campus, offers over 350 degree programs, through 15 degree-granting colleges and schools. The University of South Carolina has senior campuses in Aiken, Beaufort, and Upstate (Spartanburg-Greenville). Additionally, there are four regional campuses in Lancaster, Sumter, Salkehatchie (Allendale and Walterboro), and Union. At the Columbia campus, there were approximately 27,000 students enrolled, with 1,450 full-time faculty, and 6,474 degrees awarded in the 2004-2005 fiscal year.

The University of South Carolina is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (SACS). Moreover, the University of South Carolina has numerous other accreditations for its colleges and schools. The Moore School of Business is accredited by the American Assembly of Collegiate Schools of Business. The School of Law is accredited by the American Bar Association and the Association of American Law Schools. The School of Medicine is accredited by the Association of American Medical Colleges, and the School of Music is accredited by the National Association of Schools of Music.

Founded in 1919, the Moore School of Business is the state's largest business college with more than 3,600 students enrolled. The school claims 33,000 living alumni from nine undergraduate concentrations, five master's degree programs, and two doctoral programs. In 1998, the name of the school was changed in honor of its benefactor Darla Moore, a New York financier and graduate of USC. The Moore School of Business emphasizes internships, study abroad programs, entrepreneurial opportunities, and global perspectives.

The Application and Site Visit

On September 2, 2005, The University of South Carolina submitted an application and related documents to offer the Professional Master's of Business Administration (PMBA) program in Charlotte, North Carolina. As delineated in the *Rules and Standards*, the purpose of the application and documentation is to demonstrate that the University of South Carolina is in compliance for the proposed degree program. At the request of representatives of the University of South Carolina, Dr. Howard-Vital conducted a preliminary review of the application and sent a written communication of this initial review to Dr. Tom Madden on September 8, 2005. A revised application was submitted to General Administration by representatives of the University of South Carolina as a result of Dr. Howard-Vital's review.

Shortly thereafter, a team of examiners was assembled by Dr. Howard-Vital. Specific team members were appointed because of their expertise in specific disciplines relating to the application. Particular attention was paid to identifying team members who represented public and private institutions in North Carolina (as stated in the *Rules and Standards*). The team included Dr. Richard Neel (chair), Dean Emeritus, Belk College of Business Administration, and Professor of Economics Emeritus, The University of North Carolina at Charlotte; Charles J. Popovich, Head Librarian, Business Library, and Associate Professor, Ohio State University, Columbus, Ohio; Dr. Matthew Valle, Chair, Department of Business Administration, The Martha and Spencer Love School of Business, Elon University, Elon, North Carolina; and Dr. Michelle Howard-Vital (ex-officio), Associate Vice President for Academic Affairs, The University of North Carolina, Chapel Hill.

According to the *Rules and Standards of the Board of Governors of The University of North Carolina Relating to the Issuance to Nonpublic Educational Institutions to Confer Degrees* [G.S. 116-15] an institution is subject to review of licensure by the Board, or its designee, prior to commencing new degree programs. Thus, the team's task was to review the application and to participate in a site visit to determine if the institution demonstrated compliance with licensure standards. On February 13, 2006, the team of examiners visited The University of South Carolina in Columbia, South Carolina to review its compliance with the *Rules and Standards* for the proposed Professional Master's Degree in Business Administration.

During the visit, the team of examiners met with numerous faculty, staff, and students at The University of South Carolina. These meetings included Joel A. Smith, III, Dean; Dr. Thomas J. Madden, PMBA Director; Elizabeth H. Shropshier, PMBA Recruiting Manager; Paul Yazel, PMBA Operations Manager; PMBA Program; Reena Lichtenfeld, Director of Graduate Admissions and Enrollment Management; Karen Brown, Reference Librarian/Distance Education, Thomas Cooper Library; Adam Shambaugh, Assistant Department Head, Elliott White Springs Business Library; Dr. Rodney L. Roenfeldt, Associate Dean of Academic Affairs; Dr. Tatiana Kostova, International Business; Dr. Thomas O. Moliterno, Management Department; Dr. Dennis H. Oberhelman, Management Science; Dr. Elizabeth C. Ravlin, Management Department; Dr. Martin S. Roth, IMBA Director, International Business; Rory Anderson, PMBA Student; Shelley Dempsey, PMBA Alumni; Mike Griffin, PMBA Alumni; Jenny Jones, PMBA Alumni; and David Kirkpatrick, PMBA Student.

Professional MBA Program

The Professional MBA Program originated in 1970, according to USC documents. Generally, classes are conducted in studio classrooms on the Columbia Campus and broadcast via television to remote viewing sites at a variety of locations. Students at the viewing locations can view the class on television and can interact with the class using a telephone "talkback" system which allows live interaction while the class is being presented. Since the PMBA program's inception, there have been about 40-50 students from the Charlotte area in the program. These students have been attending classes at the viewing site in Rock Hill, South Carolina at York Technical College. The request for licensure would allow students to view classes at a location in Charlotte, North Carolina.

The Professional MBA Program consists of sixteen courses, and courses are sequenced so that different courses are offered every semester. Students attend classes on a part-time basis. Faculty, who teach the classes are graduate, tenure-track faculty from the Moore School of Business on the Columbia Campus of USC. Instructional time includes once a week session for twelve week nights for two hours, and four live sessions for three and one half hours on Saturdays in Columbia, South Carolina. Additionally, students can opt to attend the weekly sessions in Columbia. Students can pursue electives to focus on their area of choice. All students take a core of required courses in Financial Accounting, Organization Behavior, Managerial Accounting, Quantitative Methods I, Marketing Management, Financial Policies, Operations Management, Information Systems, Managerial Economics, and Strategic Management. Students may also choose six electives that meet their individual needs. Electives include Applied Economic Forecasting, Real Estate Finance, International Financial Management, Managing Cross-Border Teams, Innovation and New Venture Analysis, Supply Chain Coordination and Control, Consumer Behavior, and Product and Branding Policies.

Recommendations

Following the visit, the team submitted to General Administration a *Preliminary Report to the President of the University of North Carolina from the Team of Examiners for the Licensure Visit to The University of South Carolina Proposed Professional Master's Degree in Business Administration, in Charlotte,*

North Carolina on March 7, 2006. The preliminary report of the team's findings was immediately forwarded to The University of South Carolina, for correction of factual errors or significant omissions. Shortly thereafter, on March 20th, after appropriate changes were made, a *Final Report* was issued to The University of South Carolina and General Administration.

In the final report, the team of examiners included seven recommendations and one suggestion. The suggestion reflects the professional judgment of team members, and a suggestion does not signify that the institution is not in compliance with the *Rules and Standards*. A suggestion is written for the institution's benefit, and it does not need to be addressed by the institution; the recommendations; however; must be addressed by the institution. The institution responded to all recommendations; and the team chair indicated that the institution's responses were satisfactory on March 24, 2006.

Three of the seven recommendations concerned access to library data bases, use of the NC Live resource, and a generation of a written contractual arrangement for students participating in courses from the Charlotte site. The institution agreed to comply with the team's requests.

Two of the recommendations focused on including information in the Graduate Studies Bulletin for students in North Carolina. The institution agreed to include the requested information on the availability of health care facilities and the tuition guaranty bond. The team was satisfied with the institution's response.

The last two recommendations required the institution to furnish an appropriate tuition guaranty bond to General Administration and a certification of the bond's amount by a certified public accountant. The institution agreed to this recommendation, and the team was satisfied with the institution's response.

After reviewing the institution's responses, the team of examiners recommends that the University of South Carolina Columbia be granted licensure to establish a Charlotte viewing and examination site for the Professional Master of Business Administration degree program which will be delivered via satellite television from the main campus of the University, subject to compliance with all of the Recommendations contained in this report.

The team further states that if licensure is granted, a further recommendation is that a team of examiners review the Professional Master of Business Administration degree program at the Charlotte viewing and examination site one year from the date of licensure for compliance with all of the Recommendations contained in this report and for overall compliance with the licensure Standards.

Dr. Howard-Vital agrees with the team's review and recommendations; thus, General Administration recommends licensure of the proposed Professional Master's of Business Administration of The University of South Carolina to be offered in Charlotte, North Carolina.

Web of Science

X X X X X X X

Indexes thousands of the most prestigious, high impact research journals in the world. Also has cited reference searching and ways to refine and analyze your search results. Includes three indexes: Arts & Humanities Citation Index (1975 to present), Social Sciences Citation Index (1900 to present), Science Citation Index Expanded (1899 to present). Besides the subject citation databases, the Web of Science Core Collection also includes: Book Citation Index (2005 to present), Conference Proceedings Citation Index (1990-present), Current Chemical Reactions, and Index Chemicus

World Bank Data-World Development Indicators Online;

X X X X X X X

World Bank Group now provides free, open, and easy access to its comprehensive set of data on living standards around the globe—some 2,000 indicators, including hundreds that go back 50 years— through its new data portal

eStatement Studies (eSS) from RMA

X X X X X X X

The online version of Annual Statement Studies is useful for comparing company performance within an industry, as well as for business valuations and benchmarking for business plans. The expanded content contains data to assess probability of default and critical analysis of cash flow. Data is derived directly from the financial statements of RMA member companies and is updated annually in November. Contains two publications: Financial Ratio Benchmarks

- Nineteen classic financial statement ratios for over 800 industries
- Common-size balance sheet and income statement
- Trend data available on the history tabs

Industry Default Probabilities & Cash Flow Measures

- Data arrayed by asset and sales size for over 700 industries
- Probability of default estimates on a percentage scale, mapped to a .EDF bond rating scale

- Cash flow measures on a common-size percentage scale

The online version allows for data aggregation on both the national and regional levels, and searching for industries may be by name or by NAICS code. Data may be downloaded into Excel, and the Client Comparison Worksheet is an available Excel tool that helps compare your financial data with the benchmarking data from eSS.

JOURNALS:

Appendix 4

November 28, 2017

Dr. Joan T.A. Gabel
Executive Vice President of
Academic Affairs and Provost
University of South Carolina - Columbia
206 Osborne Administration Building
Columbia, SC 29208

Dear Dr. Gabel:

Thank you for your letter of June 29, 2017, notifying the Commission of the addition of six off-campus instructional sites, effective fall 2017.

The locations of the new sites are:

BB&T Center
200 S. College Street, Suite 110
Charlotte, NC 28202

Moore School of Business
Charleston Classroom
151 Market Street
Charleston, SC 29401

Moore School of Business
Greenville Classroom
201 Riverplace, Suite 300
Greenville, SC 29601

University of South Carolina - Aiken
Business and Education Building
471 University Parkway
Aiken, SC 29801

University of South Carolina - Beaufort
Campus Library
One University Boulevard
Bluffton, SC 29909

University of South Carolina - Upstate
George Dean Johnson, Jr. College of
Business and Economics
160 East St. John Street
Spartanburg, SC 29306

Your letter stated that these sites will provide between 25-49 percent of coursework leading to the Professional Master of Business Administration (P.M.B.A.) degree. The P.M.B.A. is an existing degree program that will be delivered to the off-campus sites through distance education technology. The University of South Carolina – Columbia has been approved to offer distance education programs since 2003, and the sites are equipped to receive the instruction.

Please be aware, when the institution begins to offer 50% or more of the credit for at least one program at an off-campus instructional site, a prospectus for approval of the site should be submitted **prior** to reaching the 50% threshold at the site. As a reminder, the 50% threshold requiring approval applies to any program offered by the institution; i.e., certificate, diploma, and degree programs. Effective January 1, 2018, the due dates for submission of a prospectus are:

- January 1 for sites reaching the 50% threshold as of July 1 of the current year *or*
- July 1 for sites reaching the 50% threshold as of January 1 of the following year.

Page 2
Dr. Gabel
November 28, 2017

The required elements and submission dates for a prospectus may be found in Appendix B of the *Substantive Change for SACSCOC Accredited Institutions* policy available on our website, www.sacscoc.org. Should you need assistance, please contact Dr. Barry D. Goldstein at 404-679-4501, ext. 4521, or via email at bgoldstein@sacscoc.org.

The Commission accepts notification of the six off-campus instructional sites referenced above and requests no additional information.

Best regards,

A handwritten signature in black ink, appearing to read "Kevin W. Sightler".

Kevin W. Sightler, Ph.D.
Director of Substantive Change
