

**CURRICULUM VITAE**  
ALEXANDER C. MCLAIN  
[PERSONAL WEBSITE](#)

Department of Epidemiology and Biostatistics  
Arnold School of Public Health  
University of South Carolina  
Phone: (803)777-1124

Discovery I Building, Room 450  
915 Greene Street  
Columbia, SC 29208.  
E-mail: [mclaina@mailbox.sc.edu](mailto:mclaina@mailbox.sc.edu)

- *Statistical Interests:* High-dimensional regression models; variable selection; longitudinal, clustered, and spatial data; length-biased survival analysis.
- *Scientific Interests:* Maternal and child health outcomes, global nutrition, preventative science, and neuroimaging data.
- *Personal Interests:* Running, hiking, sour IPAs, and my three kids.

**PROFESSIONAL APPOINTMENTS**

- *Associate Professor (with tenure),* *2018 - present*  
Department of Epidemiology and Biostatistics, University of South Carolina.
- *Assistant Professor,* *2012 - 2018*  
Department of Epidemiology and Biostatistics, University of South Carolina.
- *Research Fellow,* *2011 - 2012*  
Biostatistics and Bioinformatics Branch, Division of Intramural Population Health Research, NICHD.
- *IRTA Postdoctoral Fellow,* *2009 - 2011*  
Biostatistics and Bioinformatics Branch, Division of Intramural Population Health Research, NICHD.
- *NSF-VIGRE Postdoctoral Fellow,* *2008 - 2009*  
Department of Statistics North Carolina State University.
- *Graduate Assistant,* *2003 - 2008*  
Department of Statistics, University of South Carolina.

**EDUCATION**

- Ph.D. in Statistics, University of South Carolina, Columbia, SC *August 2008*
- M.S. in Statistics, University of South Carolina, Columbia, SC *December 2005*
- B.S. in Mathematics, University of Massachusetts, Amherst, MA *May 2002*

**PROFESSIONAL ACTIVITIES**

**EDITORIAL SERVICE**

- Associate Editor for *Statistics in Medicine* (2022–).
- Associate Editor for *The American Statistician* (2020–).
- Statistical Consultant for *The American Journal of Obstetrics & Gynecology (AJOG)* (2022–).
- Member of the American Society of Nutrition [Statistical Review Board](#) for *Advances in Nutrition*, *The American Journal of Clinical Nutrition*, *The Journal of Nutrition* and *Current Developments in Nutrition* (2019–2023).

- Methodological Member of the Editorial Review Board for *Neurosurgery* and *Operative Neurosurgery* (2016–2019).
- Ad-hoc reviewer for most journals in statistics and biostatistics, along with many in epidemiology and maternal child health.

#### GRANT REVIEW PANELS

- NCCIH Mind & Body Intervention Clinical Trials study section (ZAT1 SUP), *October 2022, January 2023, October 2023*.
- Multi-ethnic Study of Atherosclerosis (MESA): Field Centers & Coordinating Center special emphasis review panel, *September 2019*.
- Medical Research Council (MRC) Methodology Research Panel, *October 2017, March 2018*.

#### OTHER EXTERNAL SERVICE

- Mentor for the [National Alliance for Doctoral Studies in the Mathematical Sciences](#) (2020–).
- President (2017–2019), Vice President (2015–2017), and Secretary (2013–2015) for the South Carolina Chapter of the *American Statistical Association*.
- Organized “*Modern Statistical Methods for Neuroimaging data*” session for the *International Chinese Statistical Association* meeting for March 2019.
- Co-organizer of SCSC at Clemson University *October 2018*.
- Co-developer of the initial *South Carolina Statistics Consortium (SCSC)* Conference at Clemson University *November 2014*.
- Organized “*Methods for assessing environmental factors on reproductive outcomes*” session at the Joint Statistical Meetings, August 2013.
- Co-developer of the “Division of Intramural Population Health Research Summer Course 2011,” *Studies in Child Health & Human Development: Theory, Design and Methods*.

#### INSTITUTIONAL SERVICE

- Chair of Epidemiology and Biostatistics Search Committee (2022–2023).
- Organizer and host the methodology portion of the Research Center for Child Well-Being [Distinguished Speaker Series](#) (2021–). Former speakers include Susan Murphy, Elizabeth Stuart, Ciprian Crainceanu, Joseph G. Ibrahim, and Ralph B. D’Agostino Jr.
- Member of Biostatistics Curriculum Committee (2021-)
- Member of Epidemiology and Biostatistics Search Committee (2012-2013, 2016-2017 & 2021-2022).
- Student Recruitment Coordinator for the Department of Epidemiology and Biostatistics (2018-2021).
- Chair of Epidemiology and Biostatistics Search Committee (2018–2019).
- Chair of the Biostatistics Division Exam Committee (2016–2017)
- Member of the Biostatistics Division Exam Committee (2014–2016 & 2019–2020).

- Member of the Arnold School of Public Health, Scholastic Standards and Petitions Committee (2013–2016).
- Division of Biostatistics Admissions Committee (2013-2019)
- Chair of the Biostatistics Forum (2014–2017)
- Department of Epidemiology and Biostatistics Fun and Frolic Committee (2014–2020).
- Member of the Division of Intramural Population Health Research Professional Development Committee, *2010-2012*.
- Judge, NIH Graduate Student Research Symposium, Poster Competition, *2010-2011*.

## PUBLICATIONS

†Student Author. \*Dual first-authors. ‡Corresponding Author. \*Senior Author.

### SELECTED PUBLICATIONS

1. Bradshaw J, JM Eberth, A Zgodic, A Federico, K Flory, **AC McLain**<sup>\*‡</sup> (2023). [County-Level Prevalence Estimates of Autism Spectrum Disorder in Children in the United States](#). *Journal of Autism and Developmental Disorders* (available online).
2. Self S, A Overby, A Zgodic<sup>†</sup>, D White, **AC McLain**<sup>\*</sup>, and C Dyckman (2023). [A hypothesis test for detecting distance-specific clustering and dispersion in areal data](#). *Spatial Statistics* 55, 100757.
3. Zgodic<sup>†‡</sup> A, **AC McLain**<sup>\*</sup>, JM Eberth, A Federico, J Bradshaw, K Flory (2023). [County-Level Prevalence Estimates of ADHD in Children in the United States](#). *Annals of Epidemiology* 79, 56–64.
4. Hong<sup>†</sup>, Y, JM Eberth, B Cai, and **AC McLain**<sup>\*‡</sup> (2022). [Estimating confidence intervals for spatial hierarchical mixed-effects models with post-stratification](#). *Spatial Statistics* 51, 100670.
5. Saraswati<sup>†</sup>, CM, E Borghi, JJ Rodrigues da Silva Breda, CM Flores-Urrutia, J Williams, C Hayashi, EA Frongillo, and **AC McLain**<sup>\*</sup> (2022). [Estimating childhood stunting and overweight trends in the European region from sparse longitudinal data](#). *Journal of Nutrition* 150:7, 1773–1782.
  - [Editorial](#) published by the *Journal of Nutrition* and [blog post](#) by the *American Society for Nutrition*, discussing the results.
6. Hess<sup>\*</sup>, SY, **AC McLain**<sup>\*</sup>, H Lescinsky, KH Brown A Afshin, R Atkin, and SJM Osendarp (2022). [Basis for changes for global burden of disease estimates related to vitamin A and zinc deficiency in the GBD 2017 and 2019 Studies](#). *Public Health Nutrition* 25:8, 2225–2231.
7. Luo<sup>†</sup>, X, G Cai, **AC McLain**, C I Amos, B Cai, and F Xiao (2022) [BMI-CNV: a Bayesian framework for multiple genotyping platforms detection of copy number variation](#). *Genetics* 222:4, iyac147.
8. Self, SCW, R Huang, S Amin, J Ewing, C Rudisill, and **AC McLain**<sup>\*</sup> (2022). [A Bayesian Susceptible-Infectious-Hospitalized-Ventilated-Recovered Model to Predict Demand for COVID-19 Inpatient Care in a Large Healthcare System](#). *PLoS One* 17:12, e0260595.
9. **McLain**<sup>‡</sup>, **AC**, S Guo, ME Thoma, and J Zhang (2021). [Length-biased semicompeting risks models for cross-sectional data: An application to current duration of pregnancy attempt data](#). *Annals of Applied Statistics* 15:2, 1054–1067. [Link to code](#).

10. Zgodic<sup>†</sup>, A, J Eberth, C Brennen, ME Wende, EW Stowe, AT Kaczynski, AD Liese and **AC McLain**<sup>\*‡</sup> (2021). [Estimates of Childhood Overweight and Obesity at the Region, State, and County Levels: A Multilevel Small Area Estimation Approach](#). *American Journal of Epidemiology* 190:12, 2618–2629.
11. Hess<sup>\*</sup>, SY, **AC McLain**<sup>\*</sup>, EA Frongillo, A Afshin, NJ Kassebaum, SJM Osendarp, R Atkin, R Rawat, and KH Brown (2021). [Challenges for estimating the global prevalence of micronutrient deficiencies and related disease burden: A case study of the Global Burden of Disease Study](#). *Current Developments in Nutrition* 5:12, nzab141.
12. Zhou<sup>†</sup>, J, J Zhang, **AC McLain**, W Lu, X Sui, and JW Hardin (2020). [Semiparametric Regression of the Illness-Death Model with Interval Censored Disease Incidence Time: an Application to the ACLS Data](#). *Statistical Methods in Medical Research* 29:12, 3707-3720.
13. **McLain**<sup>‡</sup> **AC**, EA Frongillo, E Borghi, and J Feng (2019). [Prediction intervals for heterogeneous penalized longitudinal models with multi-source summary measures: an application to estimating child malnutrition rates](#). *Statistics in Medicine* 38:1, 1002–1012. [Link to R code](#).
14. **McLain**, **AC**, EA Frongillo, SY Hess, E Piwoz (2019). [Comparison of methods used to estimate the global burden of disease related to undernutrition and suboptimal breastfeeding](#). *Advances in Nutrition* 10:3, 380–390.
15. Zhang<sup>†</sup> Y, **AC McLain**<sup>‡</sup>, B Davis, S McDermott (2019). [Fecundity and infertility among women with disability in the United States](#). *Journal of Women’s Health* 28:7, 934–940.

## SOFTWARE

- **probe**: an R package that fits a PaRtitiOned empirical Bayes Ecm (PROBE) algorithm to sparse high-dimensional linear regression models. This procedure is a computationally efficient Bayesian variable selection model with minimal prior assumptions on the parameters. See [McLain et al. \(2022\)](#) and [Zgodic et al \(2023\)](#).
- **lmmprobe**: an R package extends the PROBE algorithm to sparse high-dimensional linear mixed-effect regression models.
- **wabh**: R code to the Weighted Adaptive Benjamini Hochberg (WABH) procedure, which uses p-value weighting to improve the power of high-dimensional multiple testing. See [Zhang et al \(2023\)](#).

- [cdscr](#): R programs for the analysis of current duration data that is subjected to semi-competing risks. The details of this model are discussed in [McLain et al. \(2021\)](#).
- [phmm](#): R code to fit a Penalized Heterogeneous Mixture Model (PHMM). The details of the statistical methods can be seen in [McLain et al. \(2019\)](#). These programs estimate confidence and prediction intervals using an asymptotic estimate of the covariance matrix.
- [mnf-sdg-stunting-overweight](#): a GitHub repository containing code and sample data for models used by UNICEF, WHO, and the World Bank to generate global health estimates for stunting and overweight (generated using [phmm](#)). For more see the documentation from the [Joint-Malnutrition-Estimates](#).

## GRANTS

### CURRENT

- **Modeling Small-area Estimates of Indicators of Children’s Mental Health.**  
 Source: CDC 5U19DD001218. Period: 9/30/20 – 12/31/23,  
 PI: McLain & Eberth, Jan. Role: PI, 13% effort. Total Award: \$302,542  
*Synopsis:* The goal of this study is to create model-based, small-area (e.g., county-level) estimates of mental health outcomes among children in the U.S. Specifically, we plan to utilize data from the 2016–2018 National Survey of Children’s Health (NSCH), supplemented with auxiliary area-level data from external sources to predict the prevalence (and 95% confidence intervals) of specified mental health outcomes of U.S. children.
- **Research Center for Child Well-Being**  
 Source: NIGMS P20GM130420, Period: 3/15/20-2/28/24,  
 PI: Prinz, Ron. Role: Core Lead. Effort: 33%. Budget (per year): \$2,197,499  
*Synopsis:* I am the lead of the Statistical and Data Management Core (SDM Core) for the Center for Child Well-Being COBRE project. This project will conduct interventions and prevention research aimed at significant health-related behavioral and biomedical problems in children ages 2-10. The Center will address physical inactivity, poor dietary behaviors, childhood obesity, social-emotional problems, poor self-regulation, and aggressive behavior, all of which are critical early influences on health outcomes in adolescence and adulthood.
- **Understanding Community Obesity Initiatives and Informing Tailored Community Interventions to Reduce Childhood Obesity**  
 Source: NICHD 5 R01 DK129307-02, Period 01/09/21–6/30/24,  
 PI: Pate, Russell. Role: Co-I. Effort: 20%. Total Award: \$2,645,000.  
*Synopsis:* The proposed study will identify characteristics of community programs and policies that influence children’s diet, physical activity, and weight status in communities, schools, and families of different race/ethnicity and socioeconomic groups. The results of this study will provide a better understanding of how to tailor community programs and policies in order to prevent childhood obesity in communities at greatest risk.
- **What’s UP (Undermining Prevention) with Summer? Etiology of Accelerated Weight Gain during Summer vs. School Year**  
 Source: NIDDK 1R01DK116665-01A1, Period 9/18/18–12/31/23,  
 PI: Beets, Micheal. Role: Co-I. Effort: 5%. Budget (per year): \$658,532.  
*Synopsis:* The goal of this project is to collect information on where children go during summer, what

they do when they get there, and how their behaviors (physical activity, sedentary, sleep, and diet) during summer depart from these behaviors during the school year and how these differ between children from low and high income households.

- **Ageing Brain Cohort at the University of South Carolina (ABC@USC)**

Source: U of SC Excellence Initiative,

Period 5/01/19–4/30/24,

PI: Fridriksson, Julius.

Role: Co-I. Effort: In-kind. Total Award: \$4,469,030.

*Synopsis:* The overall goals of this project are to use imaging and genetic data to study factors that influence changes in brain health among older adults, and factors related to brain health across the adult lifespan. To complete this goal this unique study will combine genetic and environmental factors to improve our ability to interpret stroke data as well as understand the effects of aging on brain health.

**COMPLETED (PI OR M-PI)**

- Estimating population level infertility and fertility treatment rates

Source: NICHD 1R03HD097287-01,

Period 1/19/19–12/30/21,

PI: McLain.

Role: PI. Year 1 and 2 effort: 10%. Total Award: \$161,710.

*Synopsis:* The overall goal of this proposal is to develop a semi-competing risk current duration statistical methodology for nationally representative cross-sectional data, which correctly accounts for fertility treatment as a semi-competing risk and use it to estimate the magnitude and trends in infertility, identify high-risk subgroups, and monitoring the availability of fertility treatment.

- Creating Small Area Estimates Using Weighted, Multilevel Prediction Models: An Application for the National Survey of Children's Health

Source: CDC/NNPHI Subaward No. G1418

Period 4/1/19–7/30/20,

PI: McLain.

Role: PI. Effort: 25%. Total Award: \$157,761.

*Synopsis:* The goal of this project is to create model-based, small area (e.g., county-level) estimates of mental health outcomes among children in the U.S. Specifically, we plan to utilize data from the 2016 & 2017 National Survey of Children's Health (NSCH), supplemented with auxiliary area-level data from sources such as the American Community Survey to predict the prevalence (and 95% confidence intervals) of specified mental health outcomes of U.S. children.

- Analysis of Country-Level Models for Sustainable Developmental Goals 2.2: Stunting and Overweight

Source: UNICEF/WHO.

Period: 1/1/19–12/31/22,

PI: McLain & Frongillo.

Role: PI, 20% effort. Total Award: \$144,000

*Synopsis:* In this project I worked with Dr. Edward Frongillo and collaborators from the World Bank, UNICEF and the WHO. The goal of the project is to extend our previous developed statistical approaches for estimating the prevalence of various malnutrition parameters for countries in Africa to counties world-wide.

- Comparison of methods used to estimate the global burden of nutrition-related disease conditions: SGA, anthropometry, and breastfeeding.

Source: Bill & Melinda Gates Foundation,

Period: 3/1/18–12/31/18,

PI: McLain & Frongillo.

Role: PI, 10% effort. Total Award: \$23,842.

*Synopsis:* The Institute for Health Metrics and Evaluation (IHME) is a main information source of information for global burden of disease (GBD). Other entities that produce GBD estimates include the Child Health Epidemiology Reference Group (CHERG/LiST), among others. This project we compare the statistical methods, inputs, and assumed links between risk factors and outcomes

used by IHME, CHERG and others to estimate the GBD due to gestational age, stunting, wasting, sub-optimal breastfeeding and maternal BMI.

- Modeling Child Malnutrition Trend Estimates at Country Level.  
Source: World Bank. Period: 1/16–12/16,  
PI: McLain & Frongillo. Role: PI, 20% effort. Total Award: \$35,569  
*Synopsis:* In this project I worked with Dr. Edward Frongillo and collaborators from the World Bank, UNICEF and the WHO. The goal of the project was to develop a statistical approach for estimating the prevalence of various malnutrition parameters for countries in Africa using published survey data.
- Development of Sampling Weights for the Adult Tobacco Survey  
Source: SC DHEC. Period 1/1/17–4/30/19 ,  
PI: McLain. Role: PI. Effort: 10%. Total Award: \$27,798.
- Interpersonal Agreement (IPA) with the Division of Intramural Population Health Research, NICHD.  
Source: NIH. Period: 9/13–8/15,  
PI: McLain. Role: PI, 20% effort. Total Award: \$53,200  
*Synopsis:* In this project, I developed methodology for the analysis of fecundity data, including the current duration approach. Also, I served as a lead statistician for “The Upstate Kids Study” which was designed to determine the impact of fertility treatment through three years of age.

#### COMPLETED (Co-I)

- Physical Activity, Sedentary Behavior and Weight Status in Early Childhood  
Source: NICHD 1R01HD091483, Period 12/01/17–11/30/22,  
PI: Pate, Russell. Role: Co-I. Effort: 10%. Total Award: \$2,897,000.  
*Synopsis:* This study will describe physical activity and sedentary behaviors and examine the longitudinal influences of those behaviors on weight status in a cohort of infants and toddlers, ages 6 months – 36 months.
- Role of Circadian Factors in Inflammation and Colorectal Adenoma Risk.  
Source: NCI 1R01CA231321-01A1. Period: 7/1/19 - 6/30/21,  
PI: Burch, Jim. Role: Co-I, 10% effort. Budget (per year): \$728,379
- Integrated Data Analysis of Determinants of Low-Dose CT Screening for Lung Cancer  
Source: NCI 1R21CA234295-01A1, Period 09/09/20–08/31/22,  
PI: Eberth, Jan. Role: Co-I. Effort: 15%. Total Award: \$314,193.  
*Synopsis:* Our primary goal is to identify disparities in low-dose computed tomography (LDCT) screening uptake across geographic regions, and related modifiable factors at the individual level.
- Creating County- and Census Tract-Level Estimates of Childhood Obesity in the U.S.A: Spatial Multilevel Modeling Approach  
Source: FORHP (5U1CRH30539-02-00) Period 9/01/17–8/31/18,  
PI: Probst, Jan and Eberth, Jan. Role: Co-I. Effort: 11%. Total Award: \$173,000.
- Development of Smoking Estimates for South Carolina Using Weighted, Multilevel Prediction Models.  
Source: CDC/SC DHEC. Period: 9/14–9/16,  
PI: Oldendick and Eberth. Role: Co-I, 15% effort. Total Award: \$93,569
- HRV Biofeedback in Pain Patients: Pilot Intervention for Pain, Fatigue & Sleep.  
Source: VA Merit (I01BX007080). Period: 4/1/15–12/31/19,  
PI: Ginsberg, Jay and Burch, James. Role: Co-I, 10% effort. Total Award: \$647,858

- Abnormal Visual Search And Motor Function In Stroke. Period: 7/1/17-6/30/19,  
 Source: AHA AWRP (17GRNT33670098), Role: Co-I, 2.1% effort. Total Award: \$154,000.  
 PI: Herter, Troy.
- Effects of sleep deficiency during postpartum on body weight and body fat changes in African American and White women Period: 6/6/18-1/31/20,  
 Source: NIH/NIMHD R21MD012740. Role: Co-I, 5% effort. Total Award: \$184,865  
 PI: Wang, Xuewen.

## MENTORING

### ONGOING

#### ADVISOR

- Md. Nasim Saba Nishat - RA Advisor 2021-,  
 PhD candidate in Biostatistics  
 Winner of 2023-2024 SPARC research grant.
- Peter Olejua - RA Advisor 2021-,  
 PhD candidate in Biostatistics.
- Siyu Zheng - Dissertation Advisor 2020-,  
 PhD candidate in Biostatistics.
- Liela Meng - Dissertation Advisor 2023-,  
 PhD candidate in Biostatistics.

#### STATISTICAL ADVISOR FOR TRAINING AWARDS

- Layton Reesor-Oyer, PhD (Exercise Science) F32 grant 2022-,
- James White (PhD candidate in Exercise Science) F31 grant 2022-,

#### DISSERTATION COMMITTEE MEMBER

- *Biostatistics*: Shujie Chen, Xiaowen Sun, Rongjie Huang, Xingpei Zhao.
- *Epidemiology*: Samuel Gavi, Jameson Sofge.
- *Other*: Prasun K Dev (Exercise Science), Lauren von Klinggraeff (Exercise Science), Sumaiya Khan (HPEB)

### COMPLETED

#### ADVISOR

- Anja Zgodic - PhD in Biostatistics 2020-2022,  
 Dissertation: *Sparse Partitioned Empirical Bayes ECM algorithms for High-Dimensional Linear Mixed Effects and Heteroscedastic Regression*  
 Current employer: Data Scientist at Lubrizol.  
 Winner of the 2023 ENAR Distinguished Student Paper Award.  
 Winner of the Ellis R. Ott Scholarship from the Statistics Division of the American Society for Quality
- Thomas LaBone - PhD in Biostatistics 2016-2022,  
 Dissertation: *Bayesian Calibration of the ICRP Zirconium Biokinetic Model and Use of Canned Priors for the Evaluation of Bioassay*  
 Current employer: MJW Companies.

- Yuan Hong - PhD in Biostatistics 2015-2020,  
Dissertation: *Incorporation and Measurement of Uncertainty in Longitudinal and Spatial Data*  
Current employment: Data Scientist at Bayer Corporation.
- Caroline Mulatya - PhD in Biostatistics 2013-2016,  
Dissertation: *Novel Methods for Analyzing Longitudinal Data with Measurement Error in Time variable*  
Current employment: Statistician at Regenxbio.
- Yifang Tang - MSPH in Biostatistics 2014-2015,  
Thesis: *Cluster Analysis with Batch Effect*  
Current employment: QM Data Analyst at Community Health Center Network.
- Nicole Nasrallah - MSPH in Biostatistics 2020-2021,  
Thesis: *Measurement error in current duration data*  
Current employment: Data Analyst at Merz Pharmaceuticals.
- Mary Reither - Honors College BS in Statistics 2015-2017,  
Thesis: *Development of Confidence Intervals when the True Proportion is Close to Zero and its Medical Applications*  
Current employment: Statistician at Encore Capital Group.
- Robin Estrada - Statistical advisor on K23 grant 2017-2020,  
Current employment: Associate Professor in Department of Biobehavioral Health & Nursing Science at USC.
- Sarah Burkart - Statistical advisor on F32 grant 2020-2022,  
Current employment: Assistant Professor in Department of Exercise Science at USC.

DISSERTATION COMMITTEE MEMBER

- *Biostatistics*: Siyuan Guo, Xizhi Luo, Jie Zhou, Akhtar Hossain, Xingling Xu, Xin Tong, Sophia Maymyers, Tammy Harris
- *Epidemiology*: Deborah Hurley, Alecia Alianell, Torrance Nevels, Mark Guinter, Temilayo Adeyeye, Sazid Kahn, James Winstead, Michele Josey, Malcom Bevel, Nicholas V. Resciniti, Christian Alvarad, Amanda Elmore, Lauren Martini.
- *Statistics*: Md Shamim Sarker Warasi, Peijie Hou, Chuan-Fa Tang, Piaomu Liu, Bin Yao, William Cipolli.
- *Environmental Health Science*: Daniel Kilpatrick
- *Exercise Science*: Emily Shull, Agnes Bucko, Roddrick Dugger.
- *Health Promotion Education and Behavior*: Marilyn Wende
- *Health Services Policy and Management*: Chelsea Norregaard

MASTERS COMMITTEE MEMBER

- *Biostatistics*: Nadeesha Vidanapathirana, Xingpei Zhao, Myra Robinson, Jie Zhou, Farahnaz Islam, Shujie Chen.
- *Epidemiology*: Favel Mondesir, Katie O-Sheilds, Chelsea Lynes, Kristen Polinski, LaQuenta L. Weldon, Stephine Clugstone, Bryn Davis, Marilyn Wende, Andrew Broadway, Samuel Godfrey
- *Health Promotion Education and Behavior*: Anna Mesa

## TEACHING EXPERIENCE

- Biostatistical Machine Learning for Public Health, BIOS 835 ([Course Website](#)) *Fall 2023*
  - Introduction to Longitudinal Data Analysis, BIOS 755 ([Course Website](#)) *Spring 2017–2023*
  - Introduction to R programming, BIOS J711 *Fall 2020–2022*
  - Multivariate Biostatistics, BIOS 825 ([Course Website](#)) *Spring 2016, 2019, Fall 2021*
  - Applied Longitudinal Data Analysis, BIOS 770/STAT 771 *Spring 2016,*
  - Doctoral Seminar, BIOS 845 *Spring 2015,*
  - Biostatistical Methods for Rates and Proportions, BIOS 759 *Fall 2013–2015, 2017*
  - Intermediate Biometrics, BIOS 757 *Spring 2013 & 2014,*
  - Applied Multivariate Analysis,  
STAT 6216, Department of Statistics, The George Washington University. *Spring 2012,*
  - *Co-Lecturer:* DESPR Summer Course, *Summer 2011,*  
Seminar Topics - “Writing a paper: Methods and Results,” “Survival Analysis,” and “High-Dimensional  
Data Analysis.”
  - Probability and Statistics for Engineers, *Fall 2008, Spring 2009,*  
STAT 370, Department of Statistics, North Carolina State University.
  - Introduction to Descriptive Statistics, *Spring 2006, 2008,*  
STAT 110, Department of Statistics, University of South Carolina.
  - Statistics for Engineers, *Fall 2007,*  
STAT 509, Department of Statistics, University of South Carolina.
  - Elementary Statistics, *Fall 2003, 2004, Spring 2004, 2005,*  
STAT 201, Department of Statistics, University of South Carolina.
- \*All courses taught in the Department of Epidemiology and Biostatistics at the University of South Carolina unless noted otherwise.

## TALKS, POSTERS AND ABSTRACTS (SINCE 2015)

- *Parameter Expanded Variational Bayes for Sparse High-Dimensional Linear Regression,*  
Joint Statistical Meetings, Toronto, ON *August 2023.*
- *Weighting and Validation of the Childhood Obesogenic Environment Index in the United States,*  
ISBNPA Annual Scientific Meeting *June 2023.*
- *Sparse high-dimensional linear mixed modeling with a partitioned empirical Bayes ECM algorithm,*  
ENAR Spring Meeting *March 2023.*  
\*Anja Zgodic won the ENAR Distinguished Student Paper Award for this research.
- *Weighted p-values for heterogeneous dependent data: an application to voxel-based lesion-symptom mapping,*  
South Carolina ASA Meeting, Columbia, SC *March 2023.*
- *Trends in Diagnoses of Maternal Opioid Use and Neonatal Abstinence Syndrome by Race/Ethnicity, Insurance Type, and Education Level, Florida 1998-2018,*  
Society for Maternal-Fetal Medicine *March 2023.*

- *Postpartum mental health hospital encounters among mothers with prenatal opioid use*,  
Society for Maternal-Fetal Medicine March 2023.
- *Longitudinal Associations Between Sleep and Physical Activity in Infants and Toddlers*,  
South Eastern American College of Sports Medicine Feb 2023.
- *Joint modeling of survival and backwards recurrence outcomes: an analysis of factors associated with fertility treatment\**,  
Memorial Sloan-Kettering Cancer Center (invited talk) March 2022.
- *Sparse Bayesian Expectation-Maximization Algorithm for High-Dimensional Linear Mixed Models*,  
Joint Statistical Meetings August 2022.
- *Systems Supporting Clinically Salient Language Deficits*,  
Society for the Neurobiology of Language Annual Conference October 2022.
- *Estimates of Childhood Overweight and Obesity at the Region, State, and County Levels: A Multilevel Small Area Estimation Approach*,  
Conference on Statistical Practice Feb 2021.
- *Estimates of Childhood Overweight and Obesity at the Region, State, and County Levels: A Multilevel Small Area Estimation Approach*,  
South Carolina ASA Meeting, Columbia, SC March 2021.
- *Reflections and explanations on GBD 2017 and 2019 methods: Suggestions on a way forward\**,  
[re]Connected Webinar, watch on [YouTube](#) April 2021.
- *Longitudinal and Cross-sectional Associations between the Dietary Inflammatory Index and Objectively and Subjectively Measured Sleep among Police Officers*,  
Nutrition Symposium, Columbia, SC April 2021.
- *Longitudinal and Cross-sectional Associations between the Dietary Inflammatory Index and Objectively and Subjectively Measured Sleep among Police Officers*,  
Society for Epidemiologic Research (SER) Annual Meeting, San Diego, CA June 2021.
- *Cortical Reorganization Supporting Therapy-Induced Language Recovery in Chronic Aphasia: A Large-Scale Clinical Trial*,  
Society for the Neurobiology of Language Annual Conference October 2021.
- *Population Zirconium Biokinetic Model*,  
Oak Ridge National Laboratory Oak Ridge, TN Nov 2021.
- *Self-reported patient experience and quality of care among elderly patients with colon cancer*,  
Gastrointestinal Cancers Symposium, San Francisco, CA Jan 2020.
- *Trajectories of Self-Reported Sleep Quality in Active Duty Army Soldiers*,  
Association of Military Surgeons of the United States Annual Meeting, Oxon Hill, MD Dec 2019.
- *Examining spatial clustering patterns and regional and rurality variations of physical activity environments in the United States*,  
APHA 2019 Annual Meeting & Expo, Philadelphia, PA Nov 2019.
- *Childhood Obesogenic Environment Index: Region and Rurality Differences Across the United States*,  
APHA 2019 Annual Meeting & Expo, Philadelphia, PA Nov 2019.
- *Joint Model to Dynamically Predict Co-morbidity Risks for Chronic Disease Patients*,  
Discover USC, Columbia, SC April 2019.

- *Randomized Trial of Heart Rate Variability Biofeedback for Improved Cognitive Function*,  
Discover USC, Columbia, SC *April 2019.*
- *Heart Rate Variability Biofeedback for Pain, Stress, Fatigue, and Depression among Veterans*,  
AAPB Annual Meeting, Denver, CO *March 2019.*
- *Randomized Trial of Heart Rate Variability Biofeedback for Improved Cognitive Function*,  
AAPB Annual Meeting, Denver, CO *March 2019.*
- *Cross-sectional length-biased semi-competing risks data\**,  
Joint Statistical Meetings Denver, CO *August 2019.*
- *Weighted p-values for heterogeneous dependent data: an application to voxel-based lesion symptom mapping\**,  
International Chinese Statistical Association, Raleigh, NC *March 2019.*
- *Weighted p-values for heterogeneous dependent data: an application to voxel-based lesion symptom mapping,\**  
Department of Public Health Sciences,  
Medical University of South Carolina, Charleston, SC *October 2018.*
- *Trends in Gestational Weight Gain in South Carolina, 2004 - 2015*,  
The American Public Health Association, San Diego, CA *November 2018.*
- *Heart Rate Variability Biofeedback among Veterans: Pilot Intervention for Pain, Stress, Fatigue, Depression, and Sleep Disturbance*,  
Veterans Association Southeast Network Meeting *November 2018.*
- *Residential segregation and racial bias: Understanding the role of urban/rural residence*,  
Ninth Biennial Conference of the Urban History Association, Columbia, SC *July 2018.*
- *Personal Network Characteristics of Black Americans: Associations with Body Mass Index and the Role of Education*,  
APHA 2017 Annual Meeting & Expo, Atlanta, GA *Nov 2017.*  
*\*Honorable Mention for the Betty J. Cleckley Minority Research Award (presented by Stephanie Child).*
- *Public health implications for an investigation of state-level associations between cardiorespiratory fitness and BMI with training-related injuries among US Army Recruits*,  
APHA 2017 Annual Meeting & Expo, Atlanta, GA *Nov 2017.*
- *Distribution Of Cardiorespiratory Fitness Levels Of US Army Recruits From 2010-2013 By State*,  
ACSM's 2017 Annual Meeting and World Congresses, Denver, CO *June 2017.*
- *Light Intensity Physical Activity and Cardiometabolic Risk Factor Control Among Middle-Aged and Older-Adults*,  
Society for Epidemiologic Research 50th Annual Meeting, Seattle, WA *June 2017.*
- *Wheeze and Food Allergies in Children Born via Cesarean Section - The Upstate KIDS Study*,  
30th Annual Meeting for Society for Pediatric and Perinatal Epidemiologic  
Research (SPER), Seattle, WA *June 2017.*
- *Using Spatial Mixed Models for Small Area Estimation: An Application using 2014-2015 SC Adult Tobacco Survey Data*,  
National Conference on Tobacco or Health, Austin, TX *March 2017.*

- *Comparison of methods used to estimate the global burden of nutrition-related disease conditions: Pre-term birth, anthropometry, and breastfeeding*\*,  
Program in International and Community Nutrition,  
University of California Davis (invited talk) July 2017.
- *Comparison of methods used to estimate the global burden of nutrition-related disease conditions: Pre-term birth, anthropometry, and breastfeeding*\*,  
The Bill & Melinda Gates Foundation (invited talk), Seattle, WA July 2017.
- *An innovative small area estimation approach for estimating county-level tobacco use and exposure*\*,  
SC Alcohol Tobacco Survey Monthly Meeting Columbia, SC May 2017.
- *Analysis of current duration data: modeling strategies and competing risks*\*,  
Lifetime Data Analysis Conference, Storrs, CT May 2017.
- *Prediction Intervals for Penalized Longitudinal Small Area Estimation Models*\*,  
International Conference on Advances in Interdisciplinary  
Statistics and Combinatorics, Greensboro, NC October 2016.
- *An innovative small area estimation approach for estimating county-level tobacco use and exposure*\*,  
Conference on Geospatial Approaches to Cancer Control  
and Population Sciences, Bethesda, MD September 2016.
- *An innovative small area estimation approach for estimating county-level tobacco use and exposure*\*,  
National Association of Chronic Disease Directors Science,  
Epidemiology and Evaluation Committee Monthly Webinar July 2016.
- *Penalized spline mixed effects model with random time shift; an application to labor curves*\*, (invited session)  
International 2016 ICOSA Applied Statistics Symposium, Atlanta, GA June 2016.
- *Modeling country level child malnutrition prevalence*\*,  
Regional Consultations on Modeled Child Malnutrition Country Trends,  
Cape Town, South Africa June 2016.
- *Modeling country level child malnutrition prevalence*\*,  
Regional Consultations on Modeled Child Malnutrition Country Trends,  
UNICEF Headquarters Nairobi, Kenya June 2016.
- *An innovative small area estimation approach for estimating county-level tobacco use and exposure*\*,  
SC Alcohol Tobacco Survey Monthly Meeting Columbia, SC May 2016.
- *Estimating the Prevalence of Infertility in Nigeria: Application of a Current Duration Methodological Approach to Demographic and Health Survey Data*,  
Population Association of America Annual Meeting, Washington, DC April 2016.
- *Impact of Maternal Obesity on Neonatal Markers of Inflammation and Immune Response*,  
2016 Epidemiology Congress of the Americas, Miami, FL June 2016.
- *Impact of Maternal Obesity on Neonatal Markers of Inflammation and Immune Response*,  
Society for Pediatric and Perinatal Epidemiologic Research Annual Meeting, Miami, FL June 2016.
- *Impact of Maternal Smoking on Neonatal Markers of Inflammation and Immune Response*,  
Pediatric Academic Societies, Baltimore, MD May 2016.
- *Impact of Maternal Smoking on Neonatal Markers of Inflammation and Immune Response*,  
NIH Postbac Poster Day, Bethesda, MD April 2016.

- *Competing risks model for cross-sectional sampled length biased data,\** (topic contributed session)  
Joint Statistical Meetings, Seattle, WA August 2015.
- *Count Regression Models that Simultaneously Model Heaping Propensity via Scaled Distributions,*  
60th World Congress of the International Statistics Institute, Rio de Janeiro, Brazil July 2015.
- *Accuracy of self-reported survey data on ART treatment and reproductive history from the Upstate KIDS study,*  
71st American Society for Reproductive Medicine Annual Meeting, Baltimore, MD October 2015.
- *Estimating time to event characteristics via longitudinal threshold regression models - an application to cervical dilation progression,*  
Joint Statistical Meetings, Seattle, WA August 2015.
- *Illness-related diabetes social support and glycemic control among middle-aged and older adults,*  
American Public Health Association Annual Meeting, New Orleans, LA November 2014.
- *Newborn blood spot measured adipokines in association with infant growth to 18 months: the Upstate KIDS study,*  
The Obesity Society's 2014 Annual Scientific Meeting, Boston, MA November 2014.
- *Estimating Time to Cervical Dilation Progression Longitudinal Threshold Regression Model versus Interval-Censored Survival Model,*  
South Carolina Statistics Consortium, Clemson, SC November 2014.
- *Novel Statistical Methods for Individualized Prediction with Applications to Obstetrical Practice,*  
Division of Intramural Research, National Institutes of Health, Bethesda, MD October 2014.
- *Analysis of current duration data: modeling strategies and competing risks,\** (Invited)  
Statistics Colloquia, University of South Carolina, Columbia, SC October 2014.
- *Successive time-to-pregnancy among women experiencing hCG pregnancy loss,* (Doctoral Student Prize Paper)  
American College of Epidemiology Annual Meeting, Silver Spring, MD, September 2014.
- *Clustering of Retrospectively Reported and Prospectively Observed Time-To-Pregnancy Among Women in a Preconception Cohort,*  
American College of Epidemiology Annual Meeting, Silver Spring, MD, September 2014.
- *Eliciting Parental Support for the Use of Newborn Blood Spots for Population Health Research,*  
American College of Epidemiology Annual Meeting, Silver Spring, MD, September 2014.
- *Efficiency of longitudinal first-hitting time models versus interval censored survival analysis with application to labor duration curves,\** (topic contributed session)  
Joint Statistical Meetings, Boston, MA August 2014.
- *Regression Models for Heaped Data,* (topic contributed session)  
Joint Statistical Meetings, Boston, MA August 2014.
- *Successive time-to-pregnancy among women experiencing hCG pregnancy loss,*  
Society for Pediatric and Perinatal Epidemiologic Research Annual Meeting, June 2014.
- *Blood spot adiponectin and infant birth size,*  
Society for Pediatric and Perinatal Epidemiologic Research Annual Meeting, June 2014.

- *The estimation of infertility prevalence in the United States - application of a current duration approach to a nationally representative sample*, (invited)  
Intramural Research Program on Reproductive and Adult Endocrinology,  
NICHD, NIH, Bethesda, MD *June 2014.*
  - *Modeling Longitudinal Data with a Random Changepoint and no Time-Zero: Applications to Inference and Prediction of the Labor Curve*,\* (invited)  
Reproductive, Environmental and Child Health (REACH) Seminar  
Medical University of South Carolina, Charleston, SC *June 2014.*
  - *Modeling Longitudinal Data with a Random Changepoint and no Time-Zero: Applications to Inference and Prediction of the Labor Curve*, (invited)  
Statistical Analysis of Multi-Outcome Data Workshop, Cambridge, UK *June 2014.*
- \*Presenter

### **HONORS AND AWARDS**

- Certificate of Meritorious Service, University of South Carolina Office of the President, 2020.
- *Two Thumbs Up Award*, Delta Alpha Pi Honor Society, 2012–2013.
- IRTA Postdoctoral Research Fellowship, 2009-2011.
- NSF-VIGRE Postdoctoral Research Fellowship, 2008-2009.
- Outstanding Graduate Assistant Award, Department of Statistics, University of South Carolina, 2008.
- R.L. Anderson Student Paper Award, Southern Regional Council on Statistics (SRCOS), 2008.
- ASA Travel Award to attend 2008 SRCOS SRC, 2008.
- Research Fellowship under NIH Grant 2 R01 GM56182 Summer 2007, 2008
- University of South Carolina Graduate School Award to present a dissertation-based paper at the Eastern North American Region spring meeting, Atlanta, Georgia. March 2007.
- Outstanding Substitute Teacher Award, Binghamton City School District, October 2003.
